

**COMBINED DECLARATION FOR REISSUE PATENT APPLICATION AND
POWER OF ATTORNEY (Continued)**
(Includes Reference to PCT International Applications)

Attorney's Docket Number

R-7824

I claimed less than I had a right to claim and now seek broader claims which omit at least the limitation of claim 1 requiring: said lighting control means including a self-contained position detection means disposed on said support member for determining said positions of said support member and thereby positions of the respective luminous devices by having a body displaceable relative to said support member by movement of the support member and determining said position based on displacement of said body relative said support member.

I claimed less than I had a right to claim because priority was not perfected to secure benefit of the foreign filing date of April 12, 1993, and I now seek perfection of priority to remove the EP 0 546 844 A2 reference as prior art, which error of not perfecting priority in the original patent resulted in claiming less than I had right to claim.

All errors corrected in this reissue application arose without any deceptive intention on the part of the applicant.

POWER OF ATTORNEY: As a named inventor, I hereby appoint the following attorney(s) and/or agent(s) to prosecute this reissue application and transact all business in the Patent and Trademark Office connected therewith.
